- ✓ QUESTION & ANSWER PERIOD

Who will be on the Town Hall panel

Osceola Water Works Board of Trustees Representatives

Osceola Water Works Superintendent

City of Osceola - City Administrator / City Council Representatives

Clarke County Reservoir Commission Representatives

Clarke County Development Corporation Representatives

Water is a major concern for communities across Iowa. With little to no significant rain in the forecast, on top of a third year of below-normal rainfall, **drought conditions continue to worsen.**

While the Osceola Water Works Board of Trustees and Water Works Team have increased water conservation efforts to **SECTION 3 - WATER EMERGENCY**, they're also bringing city officials and those who know the most current conditions of Osceola's water supply together to have an open "Town Hall Discussion" on the state of Osceola's water.

WE HOPE ALL CONCERNED CITIZENS WILL ATTEND.
